● SWIMMING

In Swimming, children learn through observation and socialisation to develop autonomy in water. The stimulus received in lessons contribute to a good physical, mental and emotional development, preparing children for a more complex cognitive reasoning.

At United Lisbon International School's Summer Camp, swimming will be carried out according to a model of "Recreational Play". This is an adjustable and versatile method in which adaptation to the aquatic environment (for beginners) and elementary learning is developed in a playful and recreational perspective, working very well for small or medium sized groups.

This activity takes place in the swimming pool of Sporting Clube de Portugal.

The teachers will be: Vítor Joaquim Celestino Aldeias, swimming teacher at Sporting since 2006 and with a vast experience in teaching swimming to children. Andreia Catarina Silva Martins, Sporting swimming teacher since 2005, with a vast experience in teaching swimming to children.

Student transportation is included in the activity price.

● DANCE & GYMNASTICS

Dance

Dance is a tool that allows children to grow up happier, working on their energy and innate curiosity from an early age. Starting with plays and activities that appeal to rhythmic movement, dance stimulates brain activity and develops body expression. Over time, this process of individual discovery gives way to collective knowledge, with the social side being highly valued during preadolescence and adolescence years.

The classes are carefully thought-out, and all the work is developed according to each age group, with the objective of acquiring dance skills that will increase the learner's confidence and help to develop autonomy in the studio as well as on stage.

Founded in 2011, Jazzy Dance Studios is today one of the most influential dance school in our country, with schools in Lisbon and Porto.

With some of the best and most experienced teachers, Jazzy created a class program capable of working the creative, artistic, emotional and social aspects, through a plurality of styles designed for each age group: Creative Dance, Contemporary, Pop Dance, Ballet.

● DANCE & GYMNASTICS

Acrobatic Gymnastics

Gymnasts work in partnership, forming female, male or mixed pairs, female groups (3 gymnasts) and male groups (4 gymnasts). They perform Balance exercises (static elements of strength and flexibility) Dynamic exercises (jumps, pirouettes, flips) and Combined (balance and dynamic elements) always choreographed with musical accompaniment.

The result is an harmonious combination of difficulty, technical and artistic execution that amazes judges and the audience. Training Acrobatic Gymnastics requires discipline, confidence, teamwork, coordination and body language. The classes from the age of 3 follow a philosophy of Fun, Physical Fitness, Fundamentals, Friendship. They consist of games and challenges, development of physical skills, patterns of gymnastics movement and beginning of group work, taking alternate positions of Top and Base.

This activity will be held in collaboration with Associação Desportiva Parque das Nações, a foundation that boasts numerous titles in acrobatic gymnastics. It will be conducted by Mariana Vieira, who is also a PE teacher at United Lisbon and a Grade III coach of Acrobatic Gymnastics for the Portuguese Gymnastics Federation, serving as our partnering instructor. Mariana has been coaching the National Team since 2005, bringing a wealth of expertise and experience to our program.
